Cloud kubernetes Configuration

Name

Kubernetes URL

☐ Use Jenkins Proxy

Kubernetes server certificate key

☐ Disable https certificate check

Kubernetes Namespace

Agent Docker Registry

☐ Inject restricted PSS security context in agent container definition

Credentials

- none -

+ Add

Test Connection

☐ WebSocket

☐ Direct Connection

Jenkins URL

http://jenkins.jenkins.svc.cluster.local:8080

Jenkins tunnel

jenkins-agent.jenkins.svc.cluster.local:50000

Connection Timeout

5

Read Timeout

15

Concurrency Limit

10

Pod Labels

Pod Label

Key

jenkins/jenkins-jenkins-agent

Value

true

Add Pod Label ▼

Pod Retention ▼

Max connections to Kubernetes API

32

Seconds to wait for pod to be running

600

Container Cleanup Timeout

5

- ☐ Transfer proxy related environment variables from controller to agent
- ☐ Restrict pipeline support to authorized folders

Defaults Provider Template Name

- ☐ Enable garbage collection
